Fix Mount Button Electronic Photo Control

Pemco electronic button photo controls provide superior control of lighting installations where reliability, compact-size and unobtrusiveness are important. These energy efficient electronic photo cells have a spectral response close to that of the human eye. The cell is environmentally sealed with a polyurethane coating which protects against moisture and airborne contaminants, strong opaque ABS housing and acrylic window provide long, leak-proof housing, which is ultrasonically welded. Photo cell controls can be mounted through the ballast housing or in the top of poles with a cast aluminum cover that contains an "eye lid". Pole sizes of 4" and 5" diameter. Finish to match pole.

Weather-Proof GFI Covers:

In-Use Weatherproof Receptacle Cover

Protection for Single Gang Applications. Meets 2008 NEC 406.8 (B)(1) code
 Mounts Vertically, 3 1/8" Depth

Metal Low-Profile In-Use Cover

The cover is UL listed, NEC & NEMA 3R Compliant. Expands out to 3 1/2" while-in-use. Meets EXTRA DUTY®. Fits Full-Size Padlock.

The receptacle cover is supplied for mounting to an outlet opening, in the post shaft, with a gasket and stainless steel screws. (By contractor.)
